Media Compatibility List

June 2010

Version 1.0

About this Document

This document details the paper & media that are compatible with this machine series (iR ADV 8085, iR ADV 8095 & iR ADV 8105) following testing conducted by Canon Inc.

Canon Europe and Canon Inc. have made the media approval procedure. According to the Procedure (mainly for uncoated paper), when necessary Canon Giessen Paper Lab[CINC authorized test lab for EMEA region] will test those media required from the Canon Branded media range and confirm that they have the same quality/performances as determined in CINC approval process.

Also, on the basis of these results other papers & medias within the Canon branded media range can also be assumed to have met the necessary standard for inclusion in approved range with this device.

Updates of this media list will be given as and when new items are added.

The media list is shown for information purposes only.

Canon Europe Ltd 2010
